

Child Development Lab

SCHOOL OF HUMAN ECOLOGY
UNIVERSITY OF WISCONSIN-MADISON

Job Title: Student Assistant

Major: Child Development, Early Childhood Education, Psychology or Educational Psychology Communication Disorders or closely related field

Mission of the UW Child Development Lab: The mission of the UW Child Development Lab is three-fold: 1) to facilitate and assist faculty and students in conducting scholarly research; 2) to prepare the next generation of early childhood professionals by offering opportunity for UW students to intern, volunteer, and observe in the CDL; and 3) to provide high quality early education programming for children birth to age 5 and engage with the community to improve the lives of children and families.

The CDL provides year-round developmentally- and culturally-appropriate early learning experiences for children in safe, relationship-based classrooms. Each of our classrooms is staffed with highly-trained teachers. Lead teachers provide supervision, guidance and mentorship to student interns, and student assistants. We model best teaching and learning practices based on research and contemporary theories of child development. An integral component of our developmental curriculum is learning through inquiry and nature based outdoor educational experiences. The CDL has 3 observation rooms for UW students to use for naturalistic observation of child development in real life context. Researchers from the Human Development and Families Studies (HDFS) program, as well as other academic programs on campus come to the CDL to conduct research studies on child development and other related topics, and to train their research assistants on their research protocols and the administration of developmental assessments.

Position Summary: The primary responsibility of the student assistant is to assist the lead teacher and the early childhood education assistant teacher in all aspects of the children's daily care and education routines at the Child Development Lab. This includes providing assistance with supervision, management, and guidance of a classroom of children, as well as preparation for daily activities. The student assistant reports to the Associate Director of the CDL. The lead and ece assistant teachers and administrators also provide direct support and supervision.

Principle Duties: Classroom Responsibilities

- Ensure the safety and well-being of children at all times.
- Greet children and families by name on arrival and at departure.
- Demonstrate high quality assistance and initiative in the facilitation of a daily program of care and activities for the assigned classroom according to best practices in early childhood education and developmentally- appropriate practice.
- Help clean, set up and prepare materials for activities.
- Participate in classroom daily routines and jobs as requested by lead teacher and or ece assistant teacher.

Child Development Lab

SCHOOL OF HUMAN ECOLOGY
UNIVERSITY OF WISCONSIN-MADISON

- Implement pyramid model child guidance consisting of positive discipline approaches.
- Assist children in areas of self-help skills, such as eating, dressing, toileting or diapering.
